- VCOMBCK1812 Each Cork 1800 x 1200mm

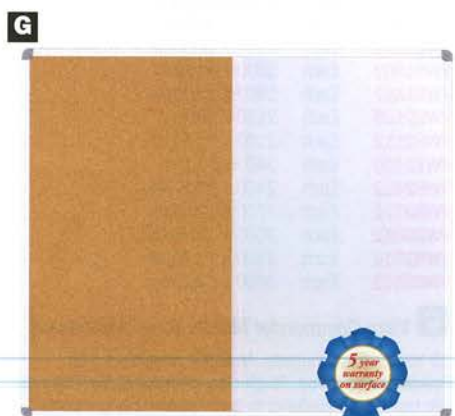

## H Fabric Notice Boards with the Acousti Fibre

Same great product - improved quality! The customer is still able to choose the finish of their liking. The only difference is that instead of the canite, we use 8.5mm thick acousti fibre which makes the pinboard a safer and a more environmentally friendly product. The Acousti-panel can be faced with a range of vista finishes to complement the decor of any environment and can dually serve as a functional decorative feature wall.

### About Acousti-Panel

The Acousti-panel delivers incredible acoustic insulation. Using acousti-panel in wall mounted pinboards will help reduce noise transmission and sound reverberation within rooms. The Acousti-panel is made from recycled polyester fibres and is also 100% recyclable.

### F Printed Graphics Boards

Customise your whiteboards using a new and exciting printing process available exclusively to Vista Visuals Australia, which gives customers complete creative control of what their individual whiteboard design will be. Our whiteboards are custom printed on a state-of-the-art full colour flatbed printer capable of printing up to 720dpi. The print image is double baked, highly durable and dried with a special UV treatment making it ready for use as soon as it exits the printer. Using Vista Visuals' quality materials and innovative printing technique any image, colour, logo, design or layout can be professionally reproduced on our porcelain whiteboards, featuring the e3 environmental ceramicsteel surface - the world's first ecologically intelligent whiteboard surface.

### WALL MOUNT BRACKETS

Install almost any screen, in any surrounding, with an SMS bracket and suitable accessories. Whether your requirement is for close-to-the-wall mounting, tilt function for the perfect adjustment, or a bracket that can be rotated into nearly limitless viewing angles, SMS has the range to ensure you achieve optimum viewing position for your flatscreen.

#### A SMS Flatscreen PolyTech

The world's thinnest and lightest bracket for mounting your flatscreen display panel really close to the wall. The standard design of this fitting is only 12 mm thick and it's made from a durable synthetic material with a 21-year guarantee. Suitable for screens with dimensions 26-42" and maximum weight 30kg. An intermediate spacer for mounting screens with contacts that face backwards is included (adds 25mm to the thickness to allow space for the contacts).

FS011039 Each

#### B SMS Flatscreen Medium Tilt

SMS Flatscreen WM T is made mainly of aluminum and is a smooth and elegant wall-mounted bracket for heavier screens. This is a unique design that will certainly do your screen justice. SMS Flatscreen WM T can be used to hang your screen flat onto the wall or to tilt it 15 degrees forward. This function facilitates a perfect view even if you position the screen high up on the wall. This bracket is easily mounted and can hold screens up to 30kg.

FS012001 Each

#### C SMS Flatscreen Heavy Tilt

SMS Flatscreen WH T is made mainly of aluminum and is an elegant, secure wall-mounted bracket for heavier screens. This is a unique design that will certainly do your screen justice. SMS Flatscreen WH T can be used to hang your screen flat onto the wall or to tilt it 10 degrees forward. This function facilitates a perfect view even if you position the screen high up on the wall. This bracket is easily mounted and can hold screens up to 75kg.

PL021001 Each

#### D SMS Flatscreen Swivel Tilt

The SMS Flatscreen Swivel Tilt is a small wall-mounted bracket that can add a lot of flexibility to your flatscreen viewing options. It allows your screen to swivel and tilt in almost any direction. The SMS Flatscreen Swivel Tilt has a compact design and is available in a choice of three colours: Glossy White, Piano Black and Dark Grey, for tasteful matching with room decor and other equipment.

FS041016 Each Piano Black

FS041017 Each Glossy White

FS041018 Each Dark Grey

#### E SMS Flatscreen 3D Arm - Light

The SMS Flatscreen 3D Arm extends the use of your screen regardless of the room's architectural limitations. Available in a choice of three colours: Glossy White, Piano Black and Dark Grey. This is the smallest and lightest 3D arm. With a thin, flat wall bracket, but still safe and reliable. It can carry screens up to 15kg. The screen can be extended as far as 38 centimetres from the wall.

FS041013 Each Piano Black

FS041014 Each Glossy White

FS041015 Each Dark Grey

#### F SMS Flatscreen 3D Arm - Medium

The SMS Flatscreen 3D Arm extends the use of your screen regardless of the room's architectural limitations. Available in a choice of three colours: Glossy White, Piano Black and Dark Grey. The SMS Flatscreen 3D Arm can be adjusted almost any way you want. It is a sturdy construction that can support screens up to 30kg. The screen can extend as far as 50 centimetres from the wall. A smart design that allows flexible viewing in areas such as the kitchen or bedroom.

FS041010 Each Piano Black

FS041011 Each Glossy White

FS041012 Each Dark Grey

### FLOOR STANDS

Increase your style, flexibility and freedom with an SMS floor stand. SMS floor stands are available in all possible combinations. Mobile stands with wheels or fixed stands with feet. For light weight, middle weight and heavy weight screens. All models have adjustment functionality that will ensure the best possible viewing position of imagery.

#### G SMS X Series Flatscreen Mobile Floor Stand

A very flexible solution mounted on wheels that allows the screen to be rotated from a vertical to a horizontal position after mounting. Easily add shelves and cabinets for DVDs and other peripherals. Unsightly cables are hidden inside the stand. Available in three different heights: 1105mm, 1455mm and 1955mm.

The X series is characterised by clean and refined features with the surface finish given extra attention.

### INFO

Finish: Aluminium/white. Max. load: 50 kg/screen. The optional accessory SMS X H+ Unislide enables the bracket to bear up to 100kg screens. Length (column): 1105, 1455 or 1955 mm. Delivered as standard with our Unislide - SMS X H Unislide, which can be used with all VESA standards from 200 x 200 to 800 x 400 mm. (Screens ~40-55"). #### E SMS Cable Management

Add a professional finish to your wall-mounted at screen with the SMS Cable Management System. Safely and securely hideaway unsightly cables. The SMS Cable management System allows for as many as three SCART cables and one net cable to be neatly tucked away. The cable channel is made from solid aluminium, which can be painted or covered with wallpaper making it easy to hide.

The package contains:

- 1 x corner piece, 1 x connector piece,
- 1 x angle piece and 2 x end pieces.

The cable channel can be contoured to follow corners and angles, and easily cut to the right length. If you need to extend the cable channel, you can easily interconnect it to existing cable channel. Easy to install thanks to pre-drilled holes and 'smart' fasteners that keep the cables in place when the cable channel is set. SMS Cable Management is available in two lengths: 500mm and 1000mm.

#### INFO

Finish: Aluminium + Grey. Max load: 3 x Scart + 1 x power cord. Weight: 217g. Width: 61mm. Height/Length: 500/1000mm. Total height/length: 550/1050mm. Distance from wall: 18mm. Depth: 18mm. Variable: Can be cut to customized lengths and built to a 90-degree angle in order to draw cables along the wall. Note: Aluminium frames can be painted or wallpapered.
